**Preface**

**前言**

In today's world, peace and development are facing new opportunities and challenges. It is a historic mission entrusted by the era to people of all nations to firmly grasp the opportunities, jointly meet the challenges, cooperatively maintain security and collectively achieve development.

It is China's unshakable national commitment and strategic choice to take the road of peaceful development. China unswervingly pursues an independent foreign policy of peace and a national defense policy that is defensive in nature. China opposes any form of hegemonism or power politics, and does not interfere in the internal affairs of other countries. China will never seek hegemony or behave in a hegemonic manner, nor will it engage in military expansion. China advocates a new security concept featuring mutual trust, mutual benefit, equality and coordination, and pursues comprehensive security, common security and cooperative security.

It is a strategic task of China's modernization drive as well as a strong guarantee for China's peaceful development to build a strong national defense and powerful armed forces which are commensurate with China's international standing and meet the needs of its security and development interests. China's armed forces act to meet the new requirements of China's national development and security strategies, follow the theoretical guidance of the Scientific Outlook on Development, speed up the transformation of the generating mode of combat effectiveness, build a system of modern military forces with Chinese characteristics, enhance military strategic guidance and diversify the ways of employing armed forces as the times require. China's armed forces provide a security guarantee and strategic support for national development, and make due contributions to the maintenance of world peace and regional stability.

## **I. New Situation, New Challenges and New Missions**

Since the beginning of the new century, profound and complex changes have taken place in the world, but peace and development remain the underlying trends of our times. The global trends toward economic globalization and multi-polarity are intensifying, cultural diversity is increasing, and an information society is fast emerging. The balance of international forces is shifting in favor of maintaining world peace, and on the whole the international situation remains peaceful and stable. Meanwhile, however, the world is still far from being tranquil. There are signs of increasing hegemonism, power politics and neo-interventionism. Local turmoils occur frequently. Hot-spot issues keep cropping up. Traditional and non-traditional security challenges interweave and interact. Competition is intensifying in the international military field. International security issues are growing noticeably more abrupt, interrelated and comprehensive. The Asia-Pacific region has become an increasingly significant stage for world economic development and strategic interaction between major powers. The US is adjusting its Asia-Pacific security strategy, and the regional landscape is undergoing profound changes.

China has seized and made the most of this important period of strategic opportunities for its development, and its modernization achievements have captured world attention. China's overall national strength has grown dramatically and the Chinese people's lives have been remarkably improved. China enjoys general social stability and cross-Straits relations are sustaining a momentum of peaceful development. China's international competitiveness and influence are steadily increasing. However, China still faces multiple and

## **一、新形势、新挑战、新使命**

新世纪以来，世界发生深刻复杂变化，和平与发展仍然是时代主题。经济全球化、世界多极化深入发展，文化多样化、社会信息化持续推进，国际力量对比朝着有利于维护世界和平方向发展，国际形势保持总体和平稳定的基本态势。与此同时，世界仍然很不安宁，霸权主义、强权政治和新干涉主义有所上升，局部动荡频繁发生，热点问题此起彼伏，传统与非传统安全挑战交织互动，国际军事领域竞争更趋激烈，国际安全问题的突发性、关联性、综合性明显上升。亚太地区日益成为世界经济发展和大国战略博弈的重要舞台，美国调整亚太安全战略，地区格局深刻调整。

中国紧紧抓住和用好发展的重要战略机遇期，现代化建设成就举世瞩目，综合国力大幅跃升，人民生活显著改善，社会大局保持稳定，两岸关系继续呈现和平发展势头，国际竞争力和影响力不断提高。但是，中国仍面临多元复杂的安全威胁和挑战，生存安全问题和传统安全威胁、传统安全威胁和非传统安全威胁相互交织，维护国家统一、维护领土

complicated security threats and challenges. The issues of subsistence and development security and the traditional and non-traditional threats to security are interwoven. Therefore, China has an arduous task to safeguard its national unification, territorial integrity and development interests. Some country has strengthened its Asia-Pacific military alliances, expanded its military presence in the region, and frequently makes the situation there tenser. On the issues concerning China's territorial sovereignty and maritime rights and interests, some neighboring countries are taking actions that complicate or exacerbate the situation, and Japan is making trouble over the issue of the Diaoyu Islands. The threats posed by "three forces," namely, terrorism, separatism and extremism, are on the rise. The "Taiwan independence" separatist forces and their activities are still the biggest threat to the peaceful development of cross-Straits relations. Serious natural disasters, security accidents and public health incidents keep occurring. Factors affecting social harmony and stability are growing in number, and the security risks to China's overseas interests are on the increase. Changes in the form of war from mechanization to informationization are accelerating. Major powers are vigorously developing new and more sophisticated military technologies so as to ensure that they can maintain strategic superiorities in international competition in such areas as outer space and cyber space.

Facing a complex and volatile security situation, the People's Liberation Army (PLA) resolutely carries out its historical missions for the new stage in the new century. China's armed forces broaden their visions of national security strategy and military strategy, aim at winning local wars under the conditions of informationization, make active planning for the use of armed forces in peacetime, deal effectively with various security threats and accomplish diversified military tasks.

完整、维护发展利益的任务艰巨繁重。有的国家深化亚太军事同盟，扩大军事存在，频繁制造地区紧张局势。个别邻国在涉及中国领土主权和海洋权益上采取使问题复杂化、扩大化的举动，日本在钓鱼岛问题上制造事端。恐怖主义、分裂主义、极端主义“三股势力”威胁上升。“台独”分裂势力及其分裂活动仍然是两岸关系和平发展的最大威胁。重大自然灾害、安全事故和公共卫生事件频发，影响社会和谐稳定的因素增加，国家海外利益安全风险上升。机械化战争形态向信息化战争形态加速演变，主要国家大力发展军事高新技术，抢占太空、网络空间等国际竞争战略制高点。

面对复杂多变的安全环境，人民解放军坚决履行新世纪新阶段历史使命，拓展国家安全战略和军事战略视野，立足打赢信息化条件下局部战争，积极运筹和平时期武装力量运用，有效应对多种安全威胁，完成多样化军事任务。

**中国武装力量的多样化运用，坚持以下基本政策和原则：**

**The diversified employment of China's armed forces adheres to fundamental policies and principles as follows:**

-- Safeguarding national sovereignty, security and territorial integrity, and supporting the country's peaceful development. This is the goal of China's efforts in strengthening its national defense and the sacred mission of its armed forces, as stipulated in the Constitution of the People's Republic of China and other relevant laws. China's armed forces unswervingly implement the military strategy of active defense, guard against and resist aggression, contain separatist forces, safeguard border, coastal and territorial air security, and protect national maritime rights and interests and national security interests in outer space and cyber space. "We will not attack unless we are attacked; but we will surely counterattack if attacked." Following this principle, China will resolutely take all necessary measures to safeguard its national sovereignty and territorial integrity.

-- Aiming to win local wars under the conditions of informationization and expanding and intensifying military preparedness. China's armed forces firmly base their military preparedness on winning local wars under the conditions of informationization, make overall and coordinated plans to promote military preparedness in all strategic directions, intensify the joint employment of different services and arms, and enhance warfighting capabilities based on information systems. They constantly bring forward new ideas for the strategies and tactics of people's war, advance integrated civilian-military development, and enhance the quality of national defense mobilization and reserve force building. They raise in an all-round way the level of routine combat readiness, intensify scenario-oriented exercises and drills, conduct well-organized border, coastal and territorial air patrols and duties for combat readiness, and handle appropriately various crises and major emergencies.

-- 树立综合安全观念，有效遂行非战争军事行动任务。适应安全威胁新变化，重视和平时期武装力量运用。积极参加

-- Formulating the concept of comprehensive security and effectively conducting military operations other than war (MOOTW). China's armed forces adapt themselves to the new changes of security threats, and emphasize the employment of armed forces in peacetime. They actively participate in and assist China's economic and social development, and resolutely accomplish urgent, difficult, hazardous, and arduous tasks involving emergency rescue and disaster relief. As stipulated by law, they perform their duties of maintaining national security and stability, steadfastly subduing subversive and sabotage attempts by hostile forces, cracking down on violent and terrorist activities, and accomplishing security-provision and guarding tasks. In addition, they strengthen overseas operational capabilities such as emergency response and rescue, merchant vessel protection at sea and evacuation of Chinese nationals, and provide reliable security support for China's interests overseas.

-- Deepening security cooperation and fulfilling international obligations. China's armed forces are the initiator and facilitator of, and participant in international security cooperation. They uphold the Five Principles of Peaceful Coexistence, conduct all-round military exchanges with other countries, and develop cooperative military relations that are non-aligned, non-confrontational and not directed against any third party. They promote the establishment of just and effective collective security mechanisms and military confidence-building mechanisms. Bearing in mind the concept of openness, pragmatism and cooperation, China's armed forces increase their interactions and cooperation with other armed forces, and intensify cooperation on confidence-building measures (CBMs) in border areas. China's armed forces work to promote dialogue and cooperation on maritime security; participate in UN peacekeeping missions, international counter-terrorism cooperation,

-- 深化安全合作，履行国际义务。中国武装力量是国际安全合作的倡导者、推动者和参与者。坚持和平共处五项原则，全方位开展对外军事交往，发展不结盟、不对抗、不针对第三方的军事合作关系，推动建立公平有效的集体安全机制和军事互信机制。坚持开放、务实、合作的理念，深化同各国军队的交流与合作，加强边境地区建立信任措施合作，推进海上安全对话与合作，参加联合国维和行动、国际反恐合作、国际护航和救灾行动，举行中外联演联训。认真履行应尽的国际责任和义务，为维护世界和平、安全、稳定发挥积极作用。

The diversified employment of China's armed forces is legally guaranteed by formulating and revising relevant laws, regulations and policies, and the armed forces are administered strictly by rules and regulations.

## **II. Building and Development of China's Armed Forces:**

### **II. Building and Development of China's Armed Forces**

China's armed forces are composed of the People's Liberation Army (PLA), the People's Armed Police Force (PAPF) and the militia. They play a significant role in China's overall strategies of security and development, and shoulder the glorious mission and sacred duty of safeguarding national sovereignty, security and development interests.

Over the years, the PLA has been proactively and steadily pushing forward its reforms in line with the requirements of performing its missions and tasks, and building an informationized military. The PLA has intensified the strategic administration of the Central Military Commission (CMC). It established the PLA Department of Strategic Planning, reorganized the GSH (Headquarters of the General Staff) Communications Department as the GSH Informationization Department, and the GSH Training and Arms Department as the GSH Training Department. The PLA is engaged in the building of new types of combat forces. It optimizes the size and structure of the various services and arms, reforms the organization of the troops so as to make operational forces lean, joint, multi-functional and efficient. The PLA works to improve the training mechanism for military personnel of a new type, adjust policies and rules regarding military human resources and logistics, and strengthen the development of new- and high-technology weaponry and equipment to build a modern military force structure with Chinese characteristics.

The PLA Army (PLAA) is composed of mobile operational units, border and coastal defense units, guard and garrison units, and is primarily responsible for military operations on land. In line with the strategic requirements of mobile operations and multi-dimensional offense and defense, the PLAA has been reoriented from theater defense to

### **二、武装力量建设与发展**

中国武装力量由人民解放军、人民武装警察部队、民兵组成，在国家安全和发展战略全局中具有重要地位和作用，肩负着维护国家主权、安全、发展利益的光荣使命和神圣职责。

近年来，人民解放军按照履行使命任务和信息化建设发展要求，积极稳妥推进军队改革。强化军委总部战略管理功能，组建人民解放军战略规划部，将总参通信部改编为信息化部，将总参军训和兵种部改编为军训部；推进新型作战力量建设，调整优化各军兵种规模结构，改革部队编组模式，推动作战力量编成向精干、联合、多能、高效方向发展；完善新型军队人才培养体系，深化军事人力资源和后勤政策制度调整改革，加强高新技术武器装备建设，努力构建中国特色现代军事力量体系。

陆军主要担负陆地作战任务，包括机动作战部队、边海防部队、警卫警备部队等。按照机动作战、立体攻防的战略要求，陆军积极推进由区域防卫型向全域机动型转变，加快发展陆军航空兵、轻

trans-theater mobility. It is accelerating the development of army aviation troops, light mechanized units and special operations forces, and enhancing building of digitalized units, gradually making its units small, modular and multi-functional in organization so as to enhance their capabilities for air-ground integrated operations, long-distance maneuvers, rapid assaults and special operations. The PLAA mobile operational units include 18 combined corps, plus additional independent combined operational divisions (brigades), and have a total strength of 850,000. The combined corps, composed of divisions and brigades, are respectively under the seven military area commands (MACs): Shenyang (16th, 39th and 40th Combined Corps), Beijing (27th, 38th and 65th Combined Corps), Lanzhou (21st and 47th Combined Corps), Jinan (20th, 26th and 54th Combined Corps), Nanjing (1st, 12th and 31st Combined Corps), Guangzhou (41st and 42nd Combined Corps) and Chengdu (13th and 14th Combined Corps).

The PLA Navy (PLAN) is China's mainstay for operations at sea, and is responsible for safeguarding its maritime security and maintaining its sovereignty over its territorial seas along with its maritime rights and interests. The PLAN is composed of the submarine, surface vessel, naval aviation, marine corps and coastal defense arms. In line with the requirements of its offshore defense strategy, the PLAN endeavors to accelerate the modernization of its forces for comprehensive offshore operations, develop advanced submarines, destroyers and frigates, and improve integrated electronic and information systems. Furthermore, it develops blue-water capabilities of conducting mobile operations, carrying out international cooperation, and countering non-traditional security threats, and enhances its capabilities of strategic deterrence and counterattack. Currently, the PLAN has a total strength of 235,000 officers and men, and commands three fleets, namely, the Beihai Fleet, the Donghai Fleet and the Nanhai Fleet. Each

fleet has fleet aviation headquarters, support bases, flotillas and maritime garrison commands, as well as aviation divisions and marine brigades. In September 2012, China's first aircraft carrier Liaoning was commissioned into the PLAN. China's development of an aircraft carrier has a profound impact on building a strong PLAN and safeguarding maritime security.

The PLA Air Force (PLAAF) is China's mainstay for air operations, responsible for its territorial air security and maintaining a stable air defense posture nationwide. It is primarily composed of aviation, ground air defense, radar, airborne and electronic countermeasures (ECM) arms. In line with the strategic requirements of conducting both offensive and defensive operations, the PLAAF is strengthening the development of a combat force structure that focuses on reconnaissance and early warning, air strike, air and missile defense, and strategic projection. It is developing such advanced weaponry and equipment as new-generation fighters and new-type ground-to-air missiles and radar systems, improving its early warning, command and communications networks, and raising its strategic early warning, strategic deterrence and long-distance air strike capabilities. The PLAAF now has a total strength of 398,000 officers and men, and an air command in each of the seven Military Area Commands (MACs) of Shenyang, Beijing, Lanzhou, Jinan, Nanjing, Guangzhou and Chengdu. In addition, it commands one airborne corps. Under each air command are bases, aviation divisions (brigades), ground-to-air missile divisions (brigades), radar brigades and other units.

The PLA Second Artillery Force (PLASAF) is a core force for China's strategic deterrence. It is mainly composed of nuclear and conventional missile forces and operational support units, primarily responsible for deterring other countries from using nuclear weapons against China, and carrying out nuclear counterattacks and precision

strikes with conventional missiles.

Following the principle of building a lean and effective force, the PLASAF is striving to push forward its informationization transform, relying on scientific and technological progress to boost independent innovations in weaponry and equipment, modernizing current equipment selectively by applying mature technology, enhancing the safety, reliability and effectiveness of its missiles, improving its force structure of having both nuclear and conventional missiles, strengthening its rapid reaction, effective penetration, precision strike, damage infliction, protection and survivability capabilities. The PLASAF capabilities of strategic deterrence, nuclear counterattack and conventional precision strike are being steadily elevated. The PLASAF has under its command missile bases, training bases, specialized support units, academies and research institutions. It has a series of “Dong Feng” ballistic missiles and “Chang Jian” cruise missiles.

In peacetime, the PAPF’s main tasks include performing guard duties, dealing with emergencies, combating terrorism and participating in and supporting national economic development. In wartime, it is tasked with assisting the PLA in defensive operations. Based on the national information infrastructure, the PAPF has built a three-level comprehensive information network from PAPF general headquarters down to squadrons. It develops task-oriented weaponry and equipment and conducts scenario-based training so as to improve its guard-duty, emergency-response and counter-terrorism capabilities. The PAPF is composed of the internal security force and other specialized forces. The internal security force is composed of contingents at the level of province (autonomous region or municipality directly under the central government) and mobile divisions.

按照精干有效的原则，第二炮兵加快推进信息化转型，依靠科技进步推动武器装备自主创新，利用成熟技术有重点、有选择改进现有装备，提高导弹武器的安全性、可靠性、有效性，完善核常兼备的力量体系，增强快速反应、有效突防、精确打击、综合毁伤和生存防护能力，战略威慑与核反击、常规精确打击能力稳步提升。第二炮兵下辖导弹基地、训练基地、专业保障部队、院校和科研机构等，目前装备东风系列弹道导弹和长剑巡航导弹。

武警部队平时主要担负执勤、处置突发事件、反恐怖、参加和支援国家经济建设等任务，战时配合人民解放军进行防卫作战。武警部队依托国家信息基础设施，建立完善从总部至基层中队的三级综合信息网络系统，发展部队遂行任务急需的武器装备，开展针对性训练，提高执勤、处置突发事件、反恐怖能力。武警部队由内卫部队和警种部队组成，内卫部队包括省（自治区、直辖市）总队和机动师，警种部队包括黄金、森林、水电、交通部队，公安边防、消防、警卫部队列入武警序列。

Specialized PAPF forces include those guarding gold mines, forests, hydroelectric projects and transportation facilities. The border public security, firefighting and security guard forces are also components of the PAPF.

The militia is an armed organization composed of the people not released from their regular work. As an assistant and backup force of the PLA, the militia is tasked with participating in the socialist modernization drive, performing combat readiness support and defensive operations, helping maintain social order and participating in emergency rescue and disaster relief operations. The militia focuses on optimizing its size and structure, improving its weaponry and equipment, and pushing forward reforms in training so as to enhance its capabilities of supporting diversified military operations, of which the core is to win local wars in informationized conditions. The militia falls into two categories: primary and general. The primary militia has emergency response detachments; supporting detachments such as joint air defense, intelligence, reconnaissance, communications support, engineering rush-repair, transportation and equipment repair; and reserve units for combat, logistics and equipment support.

民兵是不脱产的群众武装组织，是人民解放军的助手和后备力量。民兵担负参加社会主义现代化建设、执行战备勤务、参加防卫作战、协助维护社会秩序和参加抢险救灾等任务。民兵建设注重调整规模结构，改善武器装备，推进训练改革，提高以支援保障打赢信息化条件下局部战争能力为核心的完成多样化军事任务能力。民兵组织分为基干民兵组织和普通民兵组织。基干民兵组织编有应急队伍，联合防空、情报侦察、通信保障、工程抢修、交通运输、装备维修等支援队伍，以及作战保障、后勤保障、装备保障等储备队伍。

#### **III. Defending National Sovereignty, Security and Territorial Integrity**

The fundamental tasks of China's armed forces are consolidating national defense, resisting foreign aggression and defending the motherland. Responding to China's core security needs, the diversified employment of the armed forces aims to maintain peace, contain crises and win wars; safeguard border, coastal and territorial air security; strengthen combat-readiness and warfighting-oriented exercises and drills; readily respond to and resolutely deter any provocative action which undermines China's sovereignty, security and territorial integrity; and firmly safeguard China's core national interests.

#### **Safeguarding Border and Coastal Security**

With a borderline of more than 22,000 km and a coastline of more than 18,000 km, China is one of the countries with the most neighbors and the longest land borders. Among all China's islands, more than 6,500 are larger than 500 square meters each. China's island coastline is over 14,000 km long. China's armed forces defend and exercise jurisdiction over China's land borders and sea areas, and the task of safeguarding border and coastal security is arduous and complicated.

The border and coastal defense forces of the PLAA are stationed in border and coastal areas, and on islands. They are responsible for defense and administrative tasks such as safeguarding the national borders, coastlines and islands, resisting and guarding against foreign invasions, encroachments and provocations, and assisting in cracking down on terrorist sabotage and cross-border crimes. The border and coastal defense forces focus on combat-readiness duties, strengthen

#### **三、捍卫国家主权、安全、领土完整**

中国武装力量的根本任务，是巩固国防、抵抗侵略、保卫祖国。中国武装力量的多样化运用，坚持以国家核心安全需求为导向，着眼维护和平、遏制危机和打赢战争，保卫边防、海防、空防安全，加强战备工作和实战化演习演练，随时应对和坚决制止一切危害国家主权、安全、领土完整的挑衅行为，坚决维护国家核心利益。

#### **保卫边海防安全**

中国有 2.2 万多公里陆地边界和 1.8 万多公里大陆海岸线，是世界上邻国最多、陆地边界最长的国家之一。中国有 5000 平方米以上的岛屿 6500 多个，岛屿岸线 1.4 万多公里。中国武装力量对陆地边界和管辖海域实施防卫、管辖，维护边海防安全的任务复杂繁重。

陆军边海防部队驻守在边境、沿海地区及海上岛屿，担负着守卫国（边）界、沿海海岸和岛屿，抵御防范外敌入侵、蚕食、挑衅，以及协助打击恐怖破坏、跨境犯罪等防卫与管理任务。边海防部队坚持以战备执勤为中心，强化边境沿海地区重要方向和敏感地段、水道、海域防卫警戒，严密防范各类入侵、蚕食

China has signed border cooperation agreements with seven neighboring countries, and established mechanisms with 12 countries for border defense talks and meetings. The border and coastal defense forces of the PLA promote friendly cooperation in joint patrols, guard duties and joint control-management drills with their counterparts of Russia, Kazakhstan, Mongolia and Vietnam, respectively. They also organize annual mutual inspections to supervise and verify the implementation of confidence-building measures in border areas with Kazakhstan, Kyrgyzstan, Russia and Tajikistan.

The PLAN strengthens maritime control and management, systematically establishes patrol mechanisms, effectively enhances situational awareness in surrounding sea areas, tightly guards against various types of harassment, infiltration and sabotage activities, and copes promptly with maritime and air incidents and emergencies. It advances maritime security cooperation, and maintains maritime peace and stability, as well as free and safe navigation. Within the framework of the Military Maritime Consultative Agreement (MMCA), the Chinese and US navies regularly exchange maritime information to avoid accidents at sea. According to the Agreement on Joint Patrols by the Navies of China and Vietnam in the Beibu Gulf, the two navies have organized joint patrols twice a year since 2006.

中国已与周边 7 个国家签订边防合作协议，与 12 个国家建立边防会谈会晤机制。人民解放军边防部队与俄罗斯、哈萨克斯坦、蒙古、越南等国边防部门开展联合巡逻执勤、联合管控演练等友好合作活动。与哈萨克斯坦、吉尔吉斯斯坦、俄罗斯、塔吉克斯坦等国每年组织相互视察活动，监督和核查边境地区信任措施落实情况。

海军加强海区的控制与管理，建立完善体系化巡逻机制，有效掌握周边海域情况，严密防范各类窜扰和渗透破坏活动，及时处置各种海空情况和突发事件。推进海上安全合作，维护海洋和平与稳定、海上航行自由与安全。在中美海上军事安全磋商机制框架下，定期开展海上信息交流，避免发生海上意外事件。根据中越签署的北部湾海域联合巡逻协议，两国海军从 2006 年起每年组织两次联合巡逻。

The border public security force is an armed law-enforcement body deployed by the state in border and coastal areas, and at ports. It assumes important responsibilities of safeguarding national sovereignty, and maintaining security and stability in border, coastal and sea areas, as well as entry and exit order at ports. It carries out diversified tasks of maintaining stability, combating crimes, conducting emergency rescues and providing security in border areas. The border public security force establishes border control zones along the borderlines, establishes maritime defense zones in the coastal areas, establishes border surveillance areas 20 to 50 meters in depth along land border and coastline areas adjacent to Hong Kong and Macao, sets up border inspection stations at open ports, and deploys a marine police force in coastal areas. In recent years, regular strict inspections, management and control in border areas and at ports have been carried out to guard against and subdue separatist, sabotage, violent and terrorist activities by the “three forces” or hostile individuals. The border public security force takes strict and coordinated measures against cross-border fishing activities, strengthens law enforcement by maritime security patrols, and clamps down on maritime offenses and crimes. Since 2011, it has handled 47,445 cases, seized 12,357 kg of drugs, confiscated 125,115 illegal guns, and tracked down 5,607 illegal border-crossers.

The militia takes an active part in combat readiness duties, joint military-police-civilian defense efforts, post duties, and border protection and control tasks in the border and coastal areas. Militia members patrol along the borders and coastlines all year round.

responsibilities. In peacetime, the chain of command of China's air defense runs from the PLAAF headquarters through the air commands of the military area commands to air defense units. The PLAAF exercises unified command over all air defense components in accordance with the CMC's intent. China's air defense system is composed of six sub-systems of reconnaissance and surveillance, command and control, aerial defense, ground air defense, integrated support and civil air defense. China has established an air defense force system that integrates reconnaissance and early warning, resistance, counterattack and protection. For air situation awareness means, air detection radars and early warning aircraft are the mainstay, supplemented by technical and ECM reconnaissance. For resistance means, fighters, fighter-bombers, ground-to-air missiles and antiaircraft artillery troops are the mainstay, supplemented by the strengths from the PLAA air defense force, militia and reserves, as well as civil air defense. For integrated protection means, various protection works and strengths are the mainstay, supplemented by specialized technical protection forces.

The PLAAF organizes the following routine air defense tasks: reconnaissance and early warning units are tasked with monitoring air situations in China's territorial air space and surrounding areas and keeping abreast of air security threats. Command organs at all levels are tasked with assuming routine combat readiness duties with the capital as the core, and border and coastal areas as the key, and commanding air defense operations at all times. Routine air defense troops on combat duty are tasked with carrying out air vigilance and patrols at sea, conducting counter-reconnaissance in border areas and verifying abnormal and unidentified air situations within the territory. The air control system is tasked with monitoring, controlling and maintaining air traffic order so as to ensure flight safety.

## Maintaining Constant Combat Readiness

Combat readiness refers to the preparations and alert activities of the armed forces for undertaking operational tasks and MOOTW, and it is the general, comprehensive and regular work of the armed forces. It is an important guarantee for coping with various security threats and accomplishing diversified military tasks to enhance the capabilities of combat readiness and maintain constant combat readiness. The PLA has a regular system of combat readiness. It improves infrastructure for combat readiness, carries out scenario-oriented drills, and earnestly organizes alert duties, border, coastal and air defense patrols and guard duties. It keeps itself prepared for undertaking operational tasks and MOOTW at all times. Based on different tasks, the troops assume different levels of readiness (Level III, Level II and Level I, from the lowest degree of alertness to the highest).

The routine combat readiness work of the PLAA serves to maintain normal order in border areas and protect national development achievements. Relying on the operational command organs and command information system, it strengthens the integration of combat readiness duty elements, explores joint duty probability within a theater, and optimizes the combat readiness duty system in operational troops at and above the regiment level. It ensures the implementation of combat readiness work through institutionalized systems and mechanisms. It creates a combat readiness system with inter-connected strategic directions, combined arms and systematized operational support. Thus, the PLAA keeps sound combat readiness with agile maneuvers and effective response. The routine combat readiness work of the PLAN serves to safeguard national territorial sovereignty and maritime rights and interests. It carries out diversified patrols and provides whole-area

## 保持常备不懈的战备状态

战备工作是军队为执行作战和非战争军事行动任务而进行的准备和戒备活动，是军队全局性、综合性、经常性的工作。提高战备水平，保持常备不懈的战备状态，是有效应对多种安全威胁、完成多样化军事任务的重要保证。人民解放军建立正规的战备秩序，加强战备基础性建设，搞好针对性战备演练，周密组织战备值班和边海空防巡逻执勤，随时准备执行作战和非战争军事行动任务。部队根据执行任务需要进入等级战备，战备等级按照戒备程度由低级到高级分为三级战备、二级战备、一级战备。

陆军部队的日常战备，以维护边境正常秩序和巩固国家建设成果为重点，依托作战指挥机构和指挥信息系统，加强战备值班要素整合，探索战区联合值班模式，推进团以上作战部队战备值班系统综合整治，以常态化运行的体制机制保证战备工作落实，形成各战略方向衔接、多兵种联合、作战保障配套的战备力量体系布局，始终保持迅即能动和有效应对的良好状态。海军部队的日常战备，以维护国家领土主权和海洋权益为重点，按照高效用兵、体系巡逻、全域监控的原则，组织和实施常态化战备巡逻，在相关海域保持军事存在。各舰队常年保持必要数量舰艇在辖区内巡逻，

surveillance in a cost-effective way. The PLAN organizes and performs regular combat readiness patrols, and maintains a military presence in relevant sea areas. All fleets maintain the necessary number of ships patrolling in areas under their respective command, beef up naval aviation reconnaissance patrols, and organize mobile forces to conduct patrols and surveillance in relevant sea areas, as required. The PLAAF focuses its daily combat readiness on territorial air defense. It follows the principles of applicability in both peacetime and wartime, all-dimension response and full territorial reach, and maintains a vigilant and efficient combat readiness. It organizes air alert patrols on a regular basis to verify abnormal and unidentified air situations promptly. The PLAAF command alert system takes PLAAF command posts as the core, field command posts as the basis, and aviation and ground air defense forces on combat duty as the pillar.

The PLASAF keeps an appropriate level of readiness in peacetime. It pursues the principles of combining peacetime needs with wartime needs, maintaining vigilance all the time and being ready to fight. It has formed a complete system for combat readiness and set up an integrated, functional, agile and efficient operational duty system to ensure rapid and effective responses to war threats and emergencies. If China comes under a nuclear threat, the nuclear missile force will act upon the orders of the CMC, go into a higher level of readiness, and get ready for a nuclear counterattack to deter the enemy from using nuclear weapons against China. If China comes under a nuclear attack, the nuclear missile force of the PLASAF will use nuclear missiles to launch a resolute counterattack either independently or together with the nuclear forces of other services. The conventional missile force is able to shift instantly from peacetime to wartime readiness, and conduct conventional medium- and long-range

加强航空兵侦察巡逻，并根据需要组织机动兵力在相关海域巡逻警戒。空军部队的日常战备，以国土防空为重点，坚持平战一体、全域反应、全疆到达的原则，保持灵敏高效的战备状态。组织常态化空中警戒巡逻，及时查证异常不明空情。空军指挥警戒值班系统以空军指挥所为核心，部队指挥所为基础，以航空兵、地面防空兵等战斗值班兵力为支撑。

第二炮兵平时保持适度戒备状态，按照平战结合、常备不懈、随时能战的原则，加强战备配套建设，构建要素集成、功能完备、灵敏高效的作战值班体系，确保部队应急反应迅速，有效应对战争威胁和突发事件。在国家受到核威胁时，核导弹部队根据中央军委命令，提升戒备状态，做好核反击准备，慑止敌人对中国使用核武器；在国家遭受核袭击时，使用导弹核武器，独立或联合其他军种核力量，对敌实施坚决反击。常规导弹部队能够快速完成平战转换，遂行常规中远程精确打击任务。

### **Carrying out Scenario-based Exercises and Drills**

The PLA takes scenario-based exercises and drills as the basic means to accelerate the transition in military training and raise combat capabilities. It widely practices in training such operational concepts in conditions of informationization as information dominance, confrontation between different systems, precision strike, fusion, integration and jointness. It organizes training based on real combat needs, formations and procedures. It pays special attention to confrontational command training, live independent force-on-force training and training in complex battlefield environments. Thus, the warfighting capabilities based on information systems have been thoroughly improved.

Carrying out trans-MAC training. To develop rapid-response and joint-operation capabilities in unfamiliar environments and complex conditions, the divisions and brigades of the same specialty with similar tasks and tailored operational environments are organized to carry out a series of trans-MAC live verification-oriented exercises and drills in the combined tactical training bases. In 2009, the Shenyang, Lanzhou, Jinan and Guangzhou MACs each sent one division to join long-distance maneuvers and confrontational drills. Since 2010, a series of campaign-level exercises and drills code-named "Mission Action" for trans-MAC maneuvers have been carried out. Specifically, in 2010 the Beijing, Lanzhou and Chengdu MACs each sent one division (brigade) led by corps headquarters, together with some PLAAF units, to participate in the exercise. In 2011, relevant troops from the Chengdu and Jinan MACs were organized and carried out the exercise

### **开展实战化演习演练**

人民解放军坚持把开展实战化演习演练作为推进军事训练转变、提高部队实战能力的重要抓手，注重将信息主导、体系对抗、精确作战、融合集成、联合制胜等信息化条件下作战理念广泛融入训练实践，按实战要求、战时编组和作战流程组织演练，突出指挥对抗训练、实兵自主对抗训练和复杂战场环境下训练，全面提高部队基于信息系统的体系作战能力。

开展跨区训练。为提高部队快速反应能力和在陌生环境、复杂条件下联合作战能力，依托合同战术训练基地，组织任务相近、类型相同和未来作战环境相似的师旅部队，以实兵检验性演习的方式开展一系列跨区机动演习演练。2009年，组织沈阳、兰州、济南和广州军区各1个师进行远程机动和对抗性演练。2010年开始，组织“使命行动”系列战役层次跨区机动演习演练。其中，2010年组织北京、兰州、成都军区各1个集团军首长机关带1个师（旅）以及空军部分兵力参演，2011年组织成都、济南军区带有关部队赴高原地区演练，2012年组织成都、

in plateau areas. In 2012, the Chengdu, Jinan and Lanzhou MACs and relevant PLAAF troops were organized and carried out the exercise in southwestern China.

Highlighting force-on-force training. The various services and arms are intensifying confrontational and verification-oriented exercises and drills. Based on different scenarios, they organize live force-on-force exercises, online confrontational exercises and computer-simulation confrontational exercises. The PLAAF creates complex battlefield environments based on its training bases, organizes confrontational exercises on “Red-Blue” war systems under informationized conditions, either between MAC air forces or between a combined “Blue Team” and MAC air force (“Red Team”). The Second Artillery Forces carry out confrontational training of reconnaissance vs. counter-reconnaissance, jamming vs. counter-jamming, and precision strikes vs. protection and counterattack, in complex battlefield environments. They are strengthening safety protection and operational skills training under nuclear, biological and chemical (NBC) threats. Units of different missile types are organized to conduct live-firing launching tasks annually.

Intensifying blue water training. The PLAN is improving the training mode of task force formation in blue water. It organizes the training of different formations of combined task forces composed of new types of destroyers, frigates, ocean-going replenishment ships and shipborne helicopters. It is increasing its research and training on tasks in complex battlefield environments, highlighting the training of remote early warning, comprehensive control, open sea interception, long-range raid, anti-submarine warfare and vessel protection at distant sea. The PLAN organizes relevant coastal forces to carry out live force-on-force training for air defense, anti-submarine, anti-mine, anti-terrorism, anti-piracy, coastal defense, and island and reef sabotage raids. Since 2007, the PLAN has

济南、兰州军区和空军有关部队赴西南地区演练。

突出对抗训练。各军兵种强化对抗性检验性演习演练，组织实兵对抗、网上对抗和计算机模拟对抗等演习，增强训练的针对性、实效性。空军依托训练基地构设复杂战场环境，组织军区空军之间、军区空军与合成“蓝军”部队之间，开展信息化条件下“红蓝”体系对抗演习。第二炮兵开展复杂战场环境下侦察与反侦察、干扰与防干扰、精确打击与防护反击的对抗性训练，加强核生化武器威胁条件下安全防护和操作技能训练，每年安排多种型号导弹部队执行实弹发射任务。

拓展远海训练。海军探索远海作战任务编组训练模式，组织由新型驱护舰、远洋综合补给舰和舰载直升机混合编成的远海作战编队编组训练，深化复杂战场环境下使命课题研练，突出远程预警及综合控制、远海拦截、远程奔袭、大洋反潜、远洋护航等重点内容训练。通过远海训练组织带动沿海有关部队进行防空、反潜、反水雷、反恐怖、反海盗、近岸防卫、岛礁破袭等对抗性实兵训练。2007年以来，在西太平洋共组织远海训练近20批90多艘次。训练中采取有效措施应对某些国家军用舰机的抵近侦察和非法干扰活动。2012

conducted training in the distant sea waters of the Western Pacific involving over 90 ships in nearly 20 batches. During the training, the PLAN took effective measures to respond to foreign close-in reconnaissance and illegal interference activities by military ships and aircraft. From April to September 2012, the training vessel Zhenghe completed global-voyage training, paying port calls to 14 countries and regions.

年 4 月至 9 月，”郑和”号训练舰进行环球航行训练，先后访问及停靠 14 个国家和地区。

Promoting ecological progress and protecting the environment. The PLA, militia and reserve organic troops are organized to help afforest barren hills, control desertification and preserve wetlands. Specifically, they have supported the construction of key national reserves and ecological engineering projects such as controlling the sources of sandstorms affecting Beijing and Tianjin, afforesting the periphery of the Taklimakan Desert, protecting the ecological environment of the upper and middle reaches of the Yangtze and Yellow rivers, and harnessing the Yarlung Zangbo, Lhasa and Nyangqu rivers in Tibet. Over the past two years, the PLA and PAPF have planted over 14 million trees, and afforested above three million mu of barren hills and beaches by large-scale planting and aerial seeding. Besides, technical units specializing in cartography, meteorology, and water supply provide such services as cartographic surveying, weather and hydrological forecasting, and water source exploration for local people.

### **Participating in Emergency Rescue and Disaster Relief**

China is one of the countries most vulnerable to natural disasters. With more varieties, wide distribution and high frequency, natural disasters endanger China’s economic and social development as well as the lives and property of many Chinese people. The armed forces of China have always acted as the shock force in emergency rescue and disaster relief, and always undertaken the most urgent, arduous and hazardous rescue tasks. According to the Regulations on the PLA’s Participation in Disaster Rescue promulgated in 2005, the PLA and PAPF are mainly tasked with rescuing and evacuating the trapped; ensuring the security of important facilities and areas; salvaging and transporting important materials; participating in specialized operations such as rush repairs of roads, bridges and tunnels, maritime search and rescue, NBC rescue, epidemic control, and medical aid; eliminating or controlling other major dangers and disasters; and assisting local governments in post-disaster reconstruction.

The PLA, PAPF and people’s governments at various levels have established military-civilian joint response mechanisms for natural disasters, set up a mobile command platform for emergency response at the strategic level, pre-stored and pre-positioned in key areas materials and equipment urgently needed for emergency rescue and disaster relief, worked out relevant scenarios for units at and above the regiment level, and organized joint military-civilian exercises and training, thereby

### **参加抢险救灾**

中国是世界上自然灾害最为严重的国家之一，灾害种类多，分布地域广，发生频率高，给国家经济建设和人民群众生命财产安全带来严重危害。中国武装力量始终是抢险救灾的突击力量，承担最紧急、最艰难、最危险的救援任务。依据2005年颁布的《军队参加抢险救灾条例》，军队和武警部队主要担负解救、转移或者疏散受困人员，保护重要目标安全，抢救、运送重要物资，参加道路（桥梁、隧道）抢修、海上搜救、核生化救援、疫情控制、医疗救护等专业抢险，排除或者控制其他危重险情、灾情，协助地方人民政府开展灾后重建工作等任务。

军队和武警部队与各级人民政府建立完善应对自然灾害军地协调联动机制，建成战略级移动应急指挥平台，在重点地区预储预置抢险救灾急需物资器材，编制修订团以上部队抢险救灾应急预案，组织军地抢险救灾联训联演，全面提高抢险救灾能力。目前，已组建抗洪抢险

enhancing their capabilities for emergency rescue and disaster relief in all respects. So far, China has formed nine state-level professional teams, with a total membership of 50,000. They are emergency-response teams for flood relief, earthquake rescue, NBC defense, emergency airlift, rush repair of transportation and power facilities, maritime search and rescue, mobile communications support, medical aid and epidemic prevention, and meteorological support. In collaboration with relevant provinces (autonomous regions, and municipalities directly under the central government) and based on active and reserve forces, all MACs have joined to set up professional emergency-rescue units at the provincial level, totaling 45,000 members.

In all major emergency-rescue and disaster-relief operations, China's armed forces have always played a vital role. In 2008, some 1.26 million officers and men as well as militia members were sent to counter the disaster of freezing weather, sleet and snowstorms in southern China, and 221,000 to participate in rescue after the devastating earthquake in Wenchuan County, Sichuan Province. In 2010, some 21,000 and 12,000 armed forces members were dispatched respectively to take part in rescue after the Yushu (Qinghai Province) earthquake and the Zhouqu (Gansu Province) mud-rock slide. Since 2011, the PLA and PAPF have contributed a total of 370,000 servicepersons and 197,000 vehicles or other machines of various types, flown over 225 sorties (using fixed-wing aircraft and helicopters), organized 870,000 militiamen and reservists, participated in emergency-rescue and disaster-relief operations in cases of floods, earthquakes, droughts, ice jams, typhoons and fires, rescued or evacuated more than 2.45 million people, and rushed 160,000 tons of goods to disaster areas. Every year, the army aviation flies hundreds of sorties to prevent and fight forest and grassland fires on a regular basis.

应急部队、地震灾害紧急救援队、核生化应急救援队、空中紧急运输服务队、交通电力应急抢险队、海上应急搜救队、应急机动通信保障队、医疗防疫救援队、气象保障应急专业队等9类5万人的国家级应急专业力量。各军区会同有关省（自治区、直辖市），依托现役和预备役部队组建4.5万人的省级应急专业力量。

## Maintaining Social Stability

In accordance with relevant laws and regulations, the armed forces of China participate in social order maintenance, and guard and fight against terrorist activities. The PAPF is the state's backbone and shock force in handling public emergencies and maintaining social stability. The Law of the People's Republic of China on the People's Armed Police Force, promulgated in August 2009, specifies the scope, measures and support of PAPF security missions. With mobile PAPF troops as the mainstay, supplemented by forces pooled from routine duty units, and supported by various police forces and PAPF academies, the PAPF has established a force structure for stability maintenance and emergency response. In addition, a counter-terrorism force structure has been set up, which consists of a counter-terrorism contingent, special-duty squadrons, special-duty platoons and emergency-response squads at state, province, municipality and county levels, respectively. Solid steps have been taken to implement strict security measures for major events, including guard duties, security checks, security of important facilities and areas, checkpoints on major roads, and armed urban patrols. From 2011 to 2012, the PAPF effectively responded to and handled various emergencies, coordinated with public security organs to successfully handle some violent and terrorist attacks, and participated in handling 68 incidents of serious violence, and rescuing 62 hostages. Altogether contributing more than 1.6 million persons, the PAPF has provided security for such important events as the 26th Summer Universiade (Shenzhen, 2011), China-Eurasia Expo (Urumqi, 2011) and Shanghai Cooperation Organization (SCO) Beijing Summit (2012).

The PLA also assists public security and PAPF forces in providing security for major events. The PLAA is mainly tasked with counter-terrorism, NBC and explosive item checks, and medical aid. The PLAN is mainly responsible for guarding

## 维护社会稳定

中国武装力量依照法律法规参加维护社会秩序行动，防范和打击恐怖活动。武警部队是国家处置公共突发事件、维护社会稳定的骨干和突击力量。2009年8月颁布实施的《中华人民共和国人民武装警察法》，明确了武警部队执行安全保卫任务的范围、措施和保障办法。武警部队构建以机动兵力为主体、以执勤部队抽组兵力为补充、以警种部队和院校兵力为支援的处突维稳力量体系，完善以国家级反恐队、省级特勤中队、市级特勤排、县级应急班为主体的四级反恐力量体系。扎实做好重大活动安保工作，严格执行现场警卫、人员安检、重要目标守卫、要道设卡和城市武装巡逻等任务。2011—2012年，有效应对和处置各类突发事件，配合公安机关成功处置多起暴力恐怖袭击事件，参与处置劫持人质等严重暴力事件68起，解救人质62人。先后完成第26届世界大学生夏季运动会、中国—亚欧博览会、上海合作组织北京峰会等重大活动安保任务，累计用兵160多万人次。

人民解放军派出相关力量协助公安、武警部队完成重大活动安保任务。陆军主要承担防范恐怖活动、核化生爆检测、医疗救援等任务，海军主要承担排除水

In recent years, contributing 145,000 servicepersons, 365 fixed-wing aircraft and helicopters, 148 ships and 554 sets of radar equipment, the PLA provided security for the Beijing Olympics, celebrations of the PRC's 60th founding anniversary, Shanghai World Expo and Guangzhou Asian Games.

The militia is an important force for maintaining social stability. It assists in the maintenance of social order in accordance with laws and regulations. Under the unified arrangements of local CPC committees and governments as well as the guidance of corresponding military organs, the militia participates in joint defense of public security, integrated social management, and security provision for major events. Each year, more than 90,000 militiamen carry out the task of guarding bridges, tunnels and railways.

Hong Kong and Macao garrison troops are dispatched by the central government to the two special administrative regions (SARs) to perform defense duties according to law. As stipulated by the garrison laws, the governments of Hong Kong and Macao SARs may, if necessary, request the central government for the assistance of the garrison troops in maintaining social order and providing disaster relief. Hong Kong and Macao garrison troops organize joint air-sea patrols, conduct annual exercises and drills, and participate in joint exercises held by the SAR governments for air-sea search and rescue operations. They succeeded in providing security for the Hong Kong venue of the Beijing Olympics (2008) and anniversary celebrations of the SARs' returning to the motherland.

域安全隐患、防范来自海上恐怖袭击等任务，空军主要承担保卫重大活动举办地和周边地区空中安全等任务。近年来，人民解放军先后参加北京奥运会、国庆60周年庆典、上海世博会、广州亚运会等重大活动的安保行动，共出动兵力14.5万人，动用飞机和直升机365架、舰船148艘、雷达554部。

驻香港、澳门部队是中央人民政府派驻香港、澳门特别行政区的部队，依法履行防务职责。香港、澳门驻军法规定，特区政府在必要时可以向中央人民政府请求驻军协助维持社会治安和救助灾害。驻香港、澳门部队适时组织联合海空巡逻和年度演习演练活动，参与特区政府组织的海上空难搜救联合演习，圆满完成北京奥运会香港赛区及香港、澳门回归庆典活动安保任务。

## Safeguarding Maritime Rights and Interests

China is a major maritime as well as land country. The seas and oceans provide immense space and abundant resources for China's sustainable development, and thus are of vital importance to the people's wellbeing and China's future. It is an essential national development strategy to exploit, utilize and protect the seas and oceans, and build China into a maritime power. It is an important duty for the PLA to resolutely safeguard China's maritime rights and interests.

In combination with its routine combat readiness activities, the PLAN provides security support for China's maritime law enforcement, fisheries, and oil and gas exploitation. It has established mechanisms to coordinate and cooperate with law-enforcement organs of marine surveillance and fishery administration, as well as a joint military-police-civilian defense mechanism. Further, the PLAN has worked in coordination with relevant local departments to conduct maritime survey and scientific investigation; build systems of maritime meteorological observation, satellite navigation, radio navigation and navigation aids; release timely weather and sea traffic information; and ensure the safe flow of traffic in sea areas of responsibility.

Together with the marine surveillance and fishery administration departments, the PLAN has conducted joint maritime exercises and drills for protecting rights and enforcing laws, and enhanced its capabilities to coordinate command and respond to emergencies in joint military-civilian operations to safeguard maritime rights. The "Donghai Collaboration-2012" joint exercise was held in the East China Sea in October 2012, involving 11 ships and eight planes.

As an important armed maritime law-enforcement body, the border public security force exercises jurisdiction over both violations of laws, rules and regulations relating to public security

## 维护海洋权益

中国是陆海兼备的大国，海洋是中国实现可持续发展的重要空间和资源保障，关系人民福祉，关乎国家未来。开发、利用和保护海洋，建设海洋强国，是国家重要发展战略。坚决维护国家海洋权益，是人民解放军的重要职责。

海军结合日常战备为国家海上执法、渔业生产和油气开发等活动提供安全保障，分别与海监、渔政等执法部门建立协调配合机制，建立完善军警民联防机制。协同地方有关部门开展海洋测绘与科学调查，建设海洋气象监测、卫星导航、无线电导航及助航标志系统，及时发布气象和船舶航行等相关信息，建立和完善管辖海域内的航行安全保障体系。

海军与海监、渔政部门多次举行海上联合维权执法演习演练，不断提高军地海上联合维权斗争指挥协同和应急处置能力。2012年10月，在东海海域举行“东海协作—2012”海上联合维权演习，共有11艘舰船、8架飞机参演。

公安边防部队作为海上重要武装执法力量，对发生在我国内水、领海、毗连区、专属经济区和大陆架违反公安行政

administration and suspected crimes committed in China's internal waters, territorial seas, contiguous zones, exclusive economic zones and continental shelf. In recent years, the border public security force has endeavored to guarantee the security of sea areas, strengthened patrols, surveillance and management along the sea boundary in the Beibu Gulf and around the Xisha sea areas, and effectively maintained maritime public order and stability.

### **Protecting Overseas Interests**

With the gradual integration of China's economy into the world economic system, overseas interests have become an integral component of China's national interests. Security issues are increasingly prominent, involving overseas energy and resources, strategic sea lines of communication (SLOCs), and Chinese nationals and legal persons overseas. Vessel protection at sea, evacuation of Chinese nationals overseas, and emergency rescue have become important ways and means for the PLA to safeguard national interests and fulfill China's international obligations.

In line with the relevant resolutions of the United Nations Security Council (UNSC), and with the consent of the Transitional Federal Government of Somalia, the Chinese government dispatched a combined naval task force to conduct escort operations in the Gulf of Aden and waters off Somalia on December 26, 2008. The combined Chinese task forces are mainly charged with safeguarding the security of Chinese ships and personnel traversing those waters and the security of ships delivering humanitarian supplies for the World Food Program (WFP) and other international organizations, and sheltering passing foreign vessels as far as possible. As of December 2012, the Chinese Navy has dispatched, in 13 task groups, 34 warships, 28 helicopters, and 910 Special Operations Force (SOF) soldiers, escorting 4,984 ships in 532 batches. Among them, 1,510 were Chinese mainland ships, 940 Hong Kong ships, 74

### **维护海外利益**

随着中国经济逐步融入世界经济体系，海外利益已经成为中国国家利益的重要组成部分，海外能源资源、海上战略通道以及海外公民、法人的安全问题日益凸显。开展海上护航、撤离海外公民、应急救援等海外行动，成为人民解放军维护国家利益和履行国际义务的重要方式。

根据联合国安理会有关决议并经索马里过渡联邦政府同意，中国政府于2008年12月26日派遣海军舰艇编队赴亚丁湾、索马里海域实施护航。主要任务是保护中国航经该海域的船舶、人员安全，保护世界粮食计划署等国际组织运送人道主义物资船舶的安全，并尽可能为航经该海域的外国船舶提供安全掩护。截至2012年12月，共派出13批34艘次舰艇、28架次直升机、910名特战队员，完成532批4984艘中外船舶护航任务，其中中国大陆1510艘、香港地区940艘、台湾地区74艘、澳门地区1艘；营救遭

Taiwan ships and one Macao ship. The task forces also rescued two Chinese ships from pirates who had boarded them and 22 which were being chased by pirates.

In February 2011, the turbulent situation in Libya posed grave security threats to Chinese institutions, enterprises and nationals in that country. The Chinese government organized the largest overseas evacuation since the founding of the PRC, and 35,860 Chinese nationals were taken home. The PLA contributed ships and aircraft to the effort. The Chinese Navy's frigate Xuzhou, on escort mission in the Gulf of Aden and waters off Somalia at that time, sailed to the waters off Libya and provided support for ships evacuating Chinese nationals stranded there. The PLAAF sent four aircraft at short notice, flew 40 sorties, evacuated 1,655 people (including 240 Nepalese) from Libya to Sudan, and took 287 Chinese nationals from Sudan back home.

## **V. Safeguarding World Peace and Regional Stability:**

### **V. Safeguarding World Peace and Regional Stability**

China's security and development are closely connected with the peace and prosperity of the world as a whole. China's armed forces have always been a staunch force upholding world peace and regional stability, and will continue to increase cooperation and mutual trust with the armed forces of other countries, participate in regional and international security affairs, and play an active role in international political and security fields.

#### **Participating in UN Peacekeeping Operations**

China earnestly fulfills its international responsibilities and obligations, and supports and actively participates in UN peacekeeping missions. In accordance with UN resolutions as well as agreements between the Chinese government and the UN, China dispatches peacekeeping troops and specialized peacekeeping personnel to designated countries or regions, who carry out peacekeeping operations under the auspices of the UN. They are mainly tasked with monitoring ceasefires, disengaging conflicting parties, providing engineering, transportation and medical support, and participating in social reconstruction and humanitarian assistance.

In 1990, the PLA sent five military observers to the UN Truce Supervision Organization (UNTSO) - the first time China had taken part in UN peacekeeping missions. In 1992, it dispatched an engineering corps of 400 officers and men to the UN Transitional Authority in Cambodia (UNTAC) - the first time China had sent an organic military unit on a peacekeeping mission. To date, the PLA has dispatched 22,000 military personnel to 23 UN peacekeeping missions. All of them have been awarded the UN peace medals. Three officers and six soldiers have laid down their lives performing

#### **参加联合国维和行动**

中国认真履行国际责任和义务，支持并积极参加联合国维和行动。根据联合国决议和中国政府与联合国达成的协议，中国派出维和部队和维和军事专业人员，进驻指定国家或地区，在联合国主导下组织实施维和行动，主要承担监督停火、隔离冲突和工程、运输、医疗保障以及参与社会重建和人道主义援助等任务。

1990年，人民解放军向联合国中东维和任务区派遣5名军事观察员，首次参加联合国维和行动。1992年，向联合国柬埔寨维和任务区派出400人的工程兵大队，首次派遣成建制部队。迄今为止，人民解放军共参加23项联合国维和行动，累计派出维和军事人员2.2万人次。中国参加维和行动的所有官兵均被授予联合国和平勋章，有3

such duties and were posthumously awarded the Dag Hammarskjold medal. So far, China is the biggest troop and police contributor among the five permanent members of the UN Security Council. It also dispatches the most numbers of troops for engineering, transportation and medical support among all the 115 contributing countries. China pays and contributes the largest share of UN peacekeeping costs among all developing countries.

As of December 2012, a total of 1,842 PLA officers and men are implementing peacekeeping tasks in nine UN mission areas. Among them, 78 are military observers and staff officers, 218 are engineering and medical personnel for the United Nations Organization Stabilization Mission in the Democratic Republic of the Congo (MONUSCO), 558 are engineering, transportation and medical personnel for the United Nations Mission in Liberia (UNMIL), 335 are engineering and medical personnel for the United Nations Interim Force in Lebanon (UNIFIL), 338 are engineering and medical personnel for the United Nations Mission in the Republic of South Sudan (UNMISS) and 315 are engineering personnel for the African Union/United Nations Hybrid Operation in Darfur (UNAMID).

Tough, brave and devoted, Chinese peacekeepers accomplish all their tasks in an exemplary manner. Over the past 22 years, Chinese peacekeepers have built and repaired over 10,000 km of roads and 284 bridges, cleared over 9,000 mines and various types of unexploded ordnance (UXO), transported over one million tons of cargo across a total distance of 11 million km and treated 120,000 patients. The staff officers and military observers have displayed a high degree of professionalism in their work at the headquarters and in the tasks of patrol, ceasefire monitoring, liaison and negotiation. The Chinese engineering units to the Democratic Republic of the Congo worked day and night to level an area of 16,000 square meters littered with volcanic rocks.

名军官和 6 名士兵在执行维和任务中牺牲，被授予联合国哈马舍尔德勋章。目前，中国是联合国安理会 5 个常任理事国中派遣维和军事人员最多的国家，是联合国 115 个维和出兵国中派出工兵、运输和医疗等保障分队最多的国家，是缴纳维和摊款最多的发展中国家。

截至 2012 年 12 月，人民解放军有 1842 名官兵在 9 个联合国任务区遂行维和任务。其中，军事观察员和参谋军官 78 人，赴联合国刚果（金）稳定特派团工兵、医疗分队共 218 人，赴联合国利比亚特派团工兵、运输和医疗分队共 558 人，赴联合国驻黎巴嫩临时部队工兵、医疗分队共 335 人，赴联合国南苏丹特派团工兵、医疗分队共 338 人，赴联合国 / 非盟达尔富尔特派团工兵分队 315 人。

中国维和部队发扬特别能吃苦、特别能战斗、特别能奉献的优良作风，高标准完成各项任务。22 年来，共新建、修复道路 1 万多公里、桥梁 284 座，排除地雷和各类未爆物 9000 多枚，运送物资 100 万吨，运输总里程 1100 多万公里，接诊病人 12 万人次。参谋军官和军事观察员在司令部工作及巡逻、监督停火、联络、谈判等各项任务中表现出高度负责的职业精神。赴刚果（金）工兵分队连续奋战数昼夜，平整

The Chinese transportation units to Liberia have worked throughout the country and served as the transportation support center for nearly 50 peacekeeping troops there. Chinese peacekeepers also build roads and bridges, repair vehicles and transport materials for, as well as deliver medical assistance and impart agricultural technology to local people. The Chinese engineering units to Lebanon invented the method of "tilted cross positioning" in minesweeping, which has greatly raised the safety and efficiency of such operations. They can now cover an average of over 500 square meters per day with this method. During the Lebanon-Israel conflict in 2006, over 3,500 unexploded bombs were defused and disposed of. The Chinese engineering units to Darfur, Sudan, dug 13 wells in areas where well digging was deemed impossible. The Chinese engineering units to South Sudan built the first interim training center for Disarmament, Demobilization and Reintegration (DDR) at a high standard, making a positive contribution to the local peace process.

Chinese peacekeepers strictly abide by the code of personal conduct for UN peacekeepers, rules of engagement and laws of host countries. They respect local religious beliefs and customs, and conscientiously observe the mission regulations and rules for the Chinese peacekeeping troops, thereby winning trust from the local people.

### **International Disaster Relief and Humanitarian Aid**

China's armed forces take an active part in international disaster relief and humanitarian aid operations organized by the government. They provide relief supplies and medical aid, dispatch specialized rescue teams to disaster-stricken countries, provide mine-sweeping assistance and carry out international exchanges of rescue and disaster reduction.

### **国际灾难救援和人道主义援助**

中国武装力量积极参加政府组织的国际灾难救援和人道主义援助，向有关受灾国提供救援物资与医疗救助，派出专业救援队赴受灾国救援减灾，为有关国家提供扫雷援助，开展救援减灾国际交流。

2002 年以来，人民解放军已执行国

international humanitarian aid missions, and transported relief materials worth more than RMB1.25 billion to 27 disaster-stricken countries. Since 2001, the Chinese International Search and Rescue (CISAR) Team, composed of officers and men from the engineering regiment of the Beijing Military Area Command, medical personnel from the PAPF General Hospital and experts from the China Earthquake Administration, has participated in eight international rescue operations. Since 2010, PLA medical assistance teams have been sent three times to Haiti and Pakistan to carry out international humanitarian medical rescue operations, and the helicopter rescue team of the army aviation has been sent to Pakistan to assist flood-relief operations there.

In March 2011 a devastating earthquake and tsunami hit Japan. The CISAR rushed to Japan and participated in the search-and-rescue operations. In July 2011 heavy floods battered Thailand. The PLAAF sent four aircraft to transport to Bangkok more than 90 tons of relief materials provided by China's Ministry of National Defense to the Thai armed forces. In September 2011, when disastrous floods struck Pakistan, the PLAAF dispatched five aircraft to deliver 7,000 tents to Karachi, and the Lanzhou Military Area Command sent a medical-care and epidemic-prevention team to Kunri, the worst-hit area.

China's armed forces actively provide medical care and aid to developing countries, and participate in international medical exchanges and cooperation, thus strengthening friendship and mutual trust with them. From 2010 to 2011, PLAN's hospital ship Peace Ark visited five countries in Asia and Africa and four countries in Latin America to provide "Harmonious Mission" humanitarian medical service. In 193 days the voyage covered 42,000 nautical miles, and nearly 50,000 people received medical services. In recent years, the PLA medical

The Chinese government attaches great importance to the solution of humanitarian problems caused by landmines. It actively supports and participates in international de-mining efforts. Since 1999, the PLA, in collaboration with relevant departments of the PRC government, has provided de-mining assistance to nearly 40 Asian, African and Latin American countries through offering training courses, sending experts to give on-site instruction, and donating de-mining equipment. As a result, the PLA has trained more than 400 mine-clearance personnel for foreign countries, guided the clearance of more than 200,000 square meters of land-mine areas and donated mine-clearance equipment worth RMB 60 million.

### **Safeguarding the Security of International SLOCs**

To fulfill China's international obligations, the Chinese navy carries out regular escort missions in the Gulf of Aden and waters off Somalia. It conducts exchanges and cooperation with other escort forces to jointly safeguard the security of the international SLOCs. As of December 2012, Chinese navy task groups have provided protection for four WFP ships and 2,455 foreign ships, accounting for 49% of the total of escorted ships. They helped four foreign ships, recovered four ships released from captivity and saved 20 foreign ships from pursuit by pirates.

来，中国人民解放军医疗队还结合参加人道主义医疗联合演练，积极为加蓬、秘鲁、印度尼西亚等国家的民众提供医疗服务。

中国政府高度重视地雷引发的人道主义问题，积极支持和参与国际扫雷援助活动。1999年以来，中国人民解放军通过举办扫雷技术培训班、专家现场指导、援助扫雷装备等方式，配合国家相关部门向近40个亚洲、非洲、拉丁美洲国家提供扫雷援助，为外国培训扫雷技术人员400多名，指导扫除雷场20多万平方米，捐赠价值约6000万元人民币的扫雷装备器材。

### **维护国际海上通道安全**

中国海军履行国际义务，在亚丁湾、索马里海域开展常态化护航行动，与多国护航力量进行交流合作，共同维护国际海上通道安全。截至2012年12月，中国海军护航编队共为4艘世界粮食计划署船舶、2455艘外国船舶提供护航，占护航船舶总数的49%。救助外国船舶4艘，接护被海盗释放的外国船舶4艘，解救被海盗追击的外国船舶20艘。

Chinese navy escort task forces have maintained smooth communication with other navies in the areas of joint escort, information sharing, coordination and liaison. They have conducted joint escorts with their Russian counterparts, carried out joint anti-piracy drills with naval ships of the ROK, Pakistan and the US, and coordinated with the European Union to protect WFP ships. It has exchanged boarding visits of commanders with task forces from the EU, NATO, the Combined Maritime Forces (CMF), the ROK, Japan and Singapore. It has exchanged officers for onboard observations with the navy of the Netherlands. China takes an active part in the conferences of the Contact Group on Piracy off the Coast of Somalia (CGPCS) and “Shared Awareness and Deconfliction” (SHADE) meetings on international merchant shipping protection.

Since January 2012, independent deployers such as China, India and Japan have strengthened their convoy coordination. They have adjusted their escort schedules on a quarterly basis, optimized available assets, and thereby enhanced escort efficiency. China, as the reference country for the first round of convoy coordination, submitted its escort timetable for the first quarter of 2012 in good time. India and Japan’s escort task forces adjusted their convoy arrangements accordingly, thereby formulating a well-scheduled escort timetable. The ROK joined these efforts in the fourth quarter of 2012.

### **Joint Exercises and Training with Foreign Armed Forces**

In adherence to the principles of being non-aligned, non-confrontational, and not directed against any third party, as well as the guidelines of mutual benefit, equality and reciprocity, the PLA has held, together with other countries, bilateral and multilateral exercises and training featuring multiple levels, domains, services and arms. This is conducive to promoting mutual trust in the political and military fields, safeguarding regional security and stability, and accelerating the PLA's modernization.

**Joint anti-terrorism military exercises within the framework of the Shanghai Cooperation Organization (SCO) have become more institutionalized.**
